About us

Golchha Organization stands as one of Nepal's most prestigious and influential business conglomerates. Founded in 1934 by the visionary Shree Ram Lal Golchha, the organization played a pivotal role in ushering Nepal into the era of industrialization. Today, Golchha Organization is a multifaceted management and investment entity with a diverse portfolio spanning industries such as jute, steel, electronics, metal, and food grains. Beyond its industrial ventures, the organization has a significant presence in international trade and the service sector, demonstrating a commitment to both economic growth and philanthropy. With a legacy of leadership and innovation, Golchha Organization continues to shape Nepal's economic landscape and contribute to its prosperity.

100+

Years in business

8000+

Employed at RK
Golchha Group

At RK Golchha Group, a dynamic segment of the Golchha Organization, our mission embraces sustainable growth rooted in integrity, innovation, and excellence. As conscientious corporate citizens, we prioritize societal, economic, and environmental well-being, nurturing a culture of continuous enhancement. From pioneering the jute industry to thriving in sectors like PP fabric, agriculture, trading, and IT, RK Golchha Group stands as a distinguished leader in Nepal's private sector. Employing over 8,000 individuals, the group's contributions have earned recognition, including the CIP Award, and garnered unwavering trust through quality products, services, and transformative social initiatives.

About Arihant Multi-Fibres

Since the 1930s, our group has been engaged in the jute sector. Building upon this legacy, Arihant Multi-Fibres Ltd., established in 1993, upholds the organization's mastery and experience in jute manufacturing and trading.

We are proud to be the country's largest and most modern jute manufacturer, equipped with the latest technology and state of the art machinery supplied by James Mackies & Son's, Ireland. We use the finest quality jute fibers and employ skilled artisans to ensure that our products meet the highest standards of quality and durability. This unit is capable of processing 25000 M.T. of Jute Per Annum with the strength of 4500 trained and efficient workmen and having a powerful visual management system.

We take pride in offering a wide range of jute products, from durable and sturdy jute bags to premium-quality sacks and hessian cloths. Our products are available in a variety of sizes and designs and can be customized to meet your specific needs. Whether you are looking for eco-friendly bags, sturdy sacks for agricultural use, or decorative jute mats and rugs, we have a product that will meet your needs.

Committed to sustainability, we use eco-friendly methods to create high-quality products, which are biodegradable, and we strive to minimize waste. With a customer-focused approach, we provide top-tier products at competitive prices, ensuring satisfaction through prompt delivery and responsive assistance.

About Raghupati Jute Mills

Established in 1946, Shree Raghupati Jute Mills Limited is the oldest operating industry in Nepal, with a distinguished legacy of over 75 years. Initially launched as a public limited company through a partnership between the Government of Nepal and Indian entrepreneurs, the mill underwent a significant transformation in 1996 when it was privatized through the acquisition of a majority of shares by Arihant Multi Fibers Ltd, a unit of the RK Golchha Group.

Since its privatization, the factory has undergone substantial modernization, with significant investments in cutting-edge technology and machinery, thereby enhancing its operational efficiency and product quality. Currently, Shree Raghupati Jute Mills Limited provides employment to approximately 3,000 individuals and operates with an impressive annual production capacity of 20,000 MT.

The mill specializes in manufacturing a diverse range of jute products, including high-quality hessian fabric, durable sacks, and versatile twine. Its continued success is a testament to effective privatization and the expertise of its dedicated management team, reinforcing its role as a leader in the industry.

Hessian Fabric

Our high-quality jute hessian fabric is a trusted choice for packaging food grains, providing sturdy sacks that ensure the safe transport of agricultural products. Furthermore, our finer-grade hessian fabric is the ideal choice for crafting stylish and eco-friendly jute bags, as well as adding a touch of elegance to your decoration projects. Embrace the natural charm and strength of our hessian fabric, elevating your packaging, fashion, and decor endeavors.

Sacking & Hessian Bags

Using Jute bags for food packaging presents an appealing and environmentally conscious alternative, thanks to its natural texture and breathability. Our sacks allow for proper air circulation, preserving food freshness and aroma, particularly for items like coffee, tea, and spices. Its rustic charm adds an artisanal touch, aligning with minimalist and eco-friendly trends. Experience the perfect blend of strength, durability, and eco-friendliness with our exceptional range of jute sacking bags.

Twine & Yarn

Jute yarn and twine offer diverse applications and benefits. They are ideal for crafting, knitting, weaving, rope-making, and creating bags, along with serving as a unique option for garment fabric, adding a rustic touch to fashion and home decor. Their versatility extends to blending with other fabrics like cotton, hemp, and more, creating intriguing textures and enhancing the visual appeal of various products. Their durability ensures longevity, making them excellent for packaging, and creative endeavors, while their affordable cost enhances their appeal for various projects. With a natural and eco-friendly composition, jute yarn and twine contribute to sustainable practices.

Leno

Introducing our exquisite jute leno fabric, a fusion of tradition and innovation with a unique openwork pattern. Widely used in agriculture, it protects crops, controls weeds, and prevents soil erosion. In packaging, its strength carries fruits and vegetables, while in construction, it stabilizes slopes and prevents erosion. For home decor and fashion, it brings a rustic touch to curtains, tablecloths, and sustainable fashion designs. Its benefits include being natural, biodegradable, durable, and cost-effective, with a breathable weave that promotes healthy plant growth. Embrace the versatility of jute leno fabric - eco-friendly, strong, and aesthetically captivating.

	NATURAL COLOR LENO FABRIC	WEIGHT	PACKAGING
1	8 x 8 - 100" (48 GSM)	244 kg / roll	2000 metres per roll
2	8 x 8 - 200" (48 GSM)	488 kg / roll	2000 metres per roll

****Additionally, we offer customization options including GSM, roll dimension, and sizes. Our capabilities extend to a maximum width of 200 inches, ensuring we can deliver solutions tailored specifically for you.***
